IDENTIFIERS	*Florida; Florida Postsecondary Educ Secur Info Act

ABSTRACT

This report contains campus crime statistics for 1990-92 of crimes reported to have occurred on the community colleges, state universities, and independent colleges and universities of Florida, as required by the Florida Postsecondary Education Security Information (FPESI) Act. It also includes an assessment of physical plant safety for 1993 provided by the state universities and independent colleges and universities. The aggregated data for 1991 and 1992 for all categories of institutions show a decrease in robberies and larceny/thefts. Homicides on state universities campuses increased from zero to three, while community colleges and independent colleges and universities reported no homicide offenses. The overall increase in Part 1 Mandatory Offenses as defined by the Florida Department of Law Enforcement Uniform Crime Reporting Program during 1990-92 was 0.4 percent for state universities, 0.1 percent for community colleges, and 2.3 percent for independent colleges and universities. The report of physical plant safety lists assessments and actions taken by Florida institutions to ensure safety. A table indicates whether or not institutions submitted physical plant safety reports. An appendix includes the statutory provisions of the FPESI Act, the guidelines for completing reports, a report form, and definitions of offenses. (MDM)

SUMMARY OF FINDINGS

SUMMARY OF FINDINGS

The Florida Postsecondary Education Security Information Act requires the Commissioner of Education to convey to the President of the Senate and the Speaker of the House of Representatives an annual report on campus crime statistics of crimes reported to have occurred on the campuses of the community colleges, state universities, and the independent colleges and universities of Florida, and an annual assessment of physical plant safety provided by the state universities and the independent colleges and universities of Florida. Community colleges are not required to report on physical plant safety. Institutions are required to make their campus crime statistics available to the public upon request.

The aggregated data for 1991 and 1992 for the state universities show a decrease in Robberies from 50 to 31 and Larceny/Thefts decreased from 3717 to 3664. In all other categories, the number of incidents increased. Homicides increased from 0 to 3, Forcible Sex Offenses increased from 13 to 24, Aggravated Assaults increased from 138 to 158, Burglary/Breaking and Entering increased from 430 to 434, and Motor Vehicle Thefts increased from 228 to 282. The overall increase in Part I crimes on state university campuses was 0.4%.

Community colleges showed no change in the number of incidences of Homicide Offenses (0). Robberies decreased from 11 to 8 and Larceny/Thefts decreased from 1649 to 1596. Forcible Sex Offenses increased from 2 to 3, Aggravated Assaults increased from 54 to 58, Burglary/Breaking & Entering increased from 297 to 306, and Motor Vehicle Thefts increased from 261 to 305. The overall increase in Part I offenses on community college campuses was 0.1%.

For independent colleges and universities reporting campus crime statistics for both 1991 and 1992, there were no Homicide Offenses. The number of Forcible Sex Offenses decreased from 11 to 9, Robberies decreased from 32 to 27, and Larceny/Thefts decreased from 1377 to 1278. Aggravated Assaults increased from 24 to 68, Burglary/Breaking and Entering increased from 239 to 299, and Motor Vehicle Thefts increased from 93 to 141. The overall increase in Part I offenses on independent college and university campuses was 2.3%.

This Report on Campus Crime Statistics includes offenses which were reported to have occurred on property controlled or owned by the institution. It does not reflect those crimes against students nor the crimes committed off the premises of the campus in the surrounding areas. Only Part I Mandatory Offenses as defined by the Florida Department of Law Enforcement Uniform Crime Reporting Program are included. The Assessment of Physical Plant Safety reports are not standardized as to format to allow the necessary flexibility for reporting on a wide variety of institutional types and sizes. A brief table indicates whether or not the independent colleges and universities submitted the Physical Plant Safety Report. No attempt is made to summarize the content of the Physical Plant Safety Reports.

ASSESSMENT OF PHYSICAL PLANT SAFETY

STATE UNIVERSITY SYSTEM
OF
FLORIDA

ANNUAL REPORT OF PHYSICAL PLANT SAFETY

January 5, 1994

Section 240.2684, Florida Statutes, requires the president of each university to conduct or have conducted an annual assessment of physical plant safety, and submit a report to the Board of Regents by January 1 of each year for transmittal through the Commissioner of Education to the President of the Senate and the Speaker of the House of Representatives. The information presented in this report is a compilation of the physical plant safety assessments conducted by the universities in the State University System on a routine basis for both safety against crime and safety to life.

The following assessments and actions are taken by the universities to ensure safety against crime:

- University police officers look for plant security deficiencies during regular patrols and report the deficiencies to the appropriate entity, such as physical plant, housing or academic/student affairs.

- The universities conduct an annual inspection to assess the adequacy of outdoor lighting, and deficiencies are reported to the appropriate division for corrective action.

- Outdoor lighting is checked by university police and physical plant personnel on a daily basis and outages are corrected immediately.

- University police and physical plant personnel check the grounds on a regular basis to ensure that building entrances, parking area perimeters, and major pathways are reasonably free of plant growth and debris.

- Annual and semi-annual dormitory and building inspections are conducted to assess building security by evaluating the lighting, doors, windows, locking devices, and ingress and egress control.

- Control of master keys is maintained on an on-going basis to ensure that access to the keys is restricted to authorized personnel.

- Vandal resistant telephones for emergency situations have been installed and are inspected on a regular basis.

- School Resource Officer programs are being implemented at the universities' laboratory and developmental research schools.

- Personal safety, rape prevention, alcohol and drug abuse, crime prevention and "adopt a cop" programs for the campus community are conducted regularly by the universities' public safety and student services departmental staff.

- Student's personal property is engraved by the universities' public safety department staff for ready identification in case of loss.

- Resident hall security guards are employed by the universities to supplement the efforts of university police officers, particularly during the evening and nighttime hours.

- Student government members, in cooperation with the universities' public safety department staff, operate student escort services during the evening and night hours.

- Reward programs have been established at some universities.

- Physical plant and public safety personnel continuously monitor areas which become hazards due to over vegetation and ensure corrections as necessary.

- Crisis management and trauma response units have been established by the universities' departments of public safety and student services to provide for early and immediate intervention for students and others experiencing a mental, physical, or emotional crisis.

- Installation of special dedicated phones to serve deaf students, faculty, and staff allow the person not to be disconnected or taken off the phone in the event of two different emergencies at one time.

- University police crime prevention practitioners consult with architects, and engineers during the planning and construction stages of new and renovated buildings to ensure that the structural design offers the greatest degree of deterrence to crime.

There are numerous plant inspections and other initiatives relating to safety to life that the universities perform, to comply with state and federal regulations and to ensure the safety and well being of students, faculty and staff. These programs include, but are not limited to, the following:

- Facility preventive maintenance programs have been established by the universities to ensure regularly scheduled inspections and maintenance of mechanical systems, safety items, and other building components.

- Fire safety inspections to evaluate buildings, fire alarm systems, and sprinkler systems are conducted on an annual basis by the Office of the Fire Marshal.

- Laboratories and other facilities in which chemicals, biologics, and radioactive materials are used are inspected annually or biannually.

- Asbestos identification and abatement projects are conducted on an on-going basis at all the institutions.

- Traffic speed control devices have been installed at selected points on campus roadways.

- Programs are being developed to survey facilities for radon, and mitigation procedures will be developed for those facilities that contain an excess of recommended levels.

- Drinking fountains are tested for lead in drinking water and corrective actions taken when necessary.

- Buried fuel tanks are regularly inspected for compliance with state regulations.

- Natural disaster emergency and facility evacuation plans establishing procedures for dealing with various catastrophes have been established by the universities.

- Safety issues addressed on a continuous basis include lead-based paint abatement, food service sanitation, pest control, vehicle safety, and personnel protective equipment.

APPENDIX

STATUTORY PROVISIONS

STATUTORY PROVISIONS

Section 240.2682, Florida Statutes. Florida Postsecondary Education Security Information Act. --

(1) This act may be cited as the "Florida Postsecondary Education Security Information Act."

(2) For the purposes of this act, "postsecondary institution" means a state university identified in s. 240.2011, a nonpublic college or university licensed pursuant to s. 246.081, or a nonpublic college or university exempt from licensure pursuant to s. 246.085.

History.--s 1 ch 80-142.

Section 240.2683, Florida Statutes. Report on campus crime statistics.--

(1) Each postsecondary institution shall prepare an annual report of campus crime statistics for submission to the respective governing or licensing boards of jurisdiction. The data for these reports may be taken from the Florida Department of Law Enforcement Annual Report. The Department of Education shall prescribe the format for institutional submission. The Board of Regents and State Board of Independent Colleges and Universities shall compile the reports and convey the aggregate institutional reports to the Commissioner of Education.

(2) Each postsecondary institution shall prepare a report of crime statistics as reported under subsection (1) for the most recent 3-year period. The report shall be updated annually. The institution shall give notice that this report is available upon request.

History.--s 2 ch 89-142.

Section 240.2684, Florida Statutes. Assessment of physical plant safety.--

The president of each postsecondary institution shall conduct or cause to be conducted an annual assessment of physical plant safety. An annual report shall incorporate the findings obtained through such assessment and recommendations for the improvement of safety on each campus. The annual report shall be submitted to the respective governing or licensing board of jurisdiction no later than January 1 of each year. Each board shall compile the individual institutional reports and convey the aggregate institutional reports to the Commissioner of Education. The Commissioner of Education shall convey these reports and the reports required in s. 240.2683 to the President of the Senate and the Speaker of the House of Representatives no later than March 1 of each year.

History.--s 3 ch 89-142.

Section 240.3815, Florida Statutes. Report of campus crime statistics.--

(1) Each community college shall prepare an annual report of statistics of crimes committed on its campus and shall submit the report to the State Board of Community Colleges. The data for these reports may be taken from the annual report of the Department of Law Enforcement. The Department of Education shall prescribe the form for submission of these reports. The State Board of Community Colleges shall compile the reports and convey the aggregate institutional data from the reports to the Commissioner of Education.

(2) Each community college shall prepare annually a report of statistics of crimes committed on its campus for the preceding 3 years. The community college shall give students and prospective students notice that this report is available upon request.

History.--s 8 ch 90-302.

GUIDELINES FOR COMPLETING REPORTS AND REPORT FORM

GUIDELINES FOR COMPLETING THE ANNUAL REPORT OF PHYSICAL PLANT SAFETY

Each president of each state university identified in Section 240.2011, Florida Statutes, and each nonpublic college or university licensed pursuant to Section 246.081, Florida Statutes, and each nonpublic college or university exempt from licensure pursuant to Section 246.084, Florida Statutes, is required to conduct or cause to be conducted an annual assessment of physical plant safety.

An annual report shall incorporate the findings obtained through such assessment and recommendations for the improvement of safety on each campus. No particular form or format will be provided for completing the required annual report. This will be left to the discretion of the presidents.

The annual reports are to be submitted by the presidents to the appropriate governing or licensing board of jurisdiction no later than January 1, 1994.

State Universities ------ Chancellor
State University System
1514 Florida Education Center
Tallahassee, Florida 32399

Independent Colleges and Universities ---- Executive Director
State Board of Independent Colleges and Universities
209 Collins Building
Tallahassee, Florida 32399.

10/5/93

GUIDELINES FOR COMPLETING THE ANNUAL REPORT OF CRIME STATISTICS

Sections 240.2683 and 240.3815, Florida Statutes, provide that all community colleges, state universities, and independent colleges and universities are required to report campus crime statistics for a three year period of time. The data for these reports may be taken from the Florida Department of Law Enforcement Annual Report, "Crime in Florida," or must otherwise be compatible with that report as to the definition of the crimes reported.

For purposes of this requirement, each institution shall provide the number of crimes which were reported to have occurred in any facility of the institution or on any property owned or under the control of the institution within the State of Florida during the year for which the report applies.

Only the Part I Mandatory Offenses, as defined by the Florida Department of Law Enforcement Uniform Crime Reporting Program, shall be included in the report. In a case where an institution does not have its own police force, it will be necessary for the institution to obtain the required information from law enforcement agencies. Information must be requested by geographic location to appropriately reflect campus boundaries. In cases where institions have multiple campuses or educational centers, it may be necessary to combine information obtained from more than one law enforcement agency.

The annual reports are to be submitted by the presidents to the appropriate governing or licensing board by January 1, 1994. The institutions must give notice to interested parties that the report is available upon request.

*Data for 1990 and 1991 are not required if this information was provided in last year's annual report.

10/05/93

DEFINITIONS OF OFFENSES

Part I MANDATORY OFFENSES

As Defined by the
Florida Department of Law Enforcement
Uniform Crime Reporting Program

I. HOMICIDE OFFENSES

MURDER AND NON-NEGLIGENT MANSLAUGHTER

DEFINITION: The killing of one human being by another.

GENERAL RULE: Any death due to a fight, argument, quarrel, assault, commission of a crime or by premeditated design.

SPECIAL INSTRUCTIONS: The natural death of a person during the commission of a crime is not reported. Do not report suicides or accidental deaths. Should one be inadvertently reported, delete it when it becomes known. Attempted murder offenses should be classified as an assault rather than homicide. Justifiable homicides are not to be included in this category.

II. SEX OFFENSES, FORCIBLE

DEFINITION: Any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent.

GENERAL RULE: The element of force or threat of force is necessary before a sexual offense is reported in this category. Any sexual act or attempt accomplished by force is classified as a forcible sex offense regardless of the age of the victim or the relationship of the victim to the offender.

A. FORCIBLE RAPE

DEFINITION: The carnal knowledge of a female, by a male, forcibly and against her will or where the victim is incapable of giving consent because of her youth or because of her temporary or permanent mental incapacity.

SPECIAL INSTRUCTIONS: The Sexual Battery Statute - The forcible rape classification falls under the State's sexual battery statute. This statute covers many sexual acts that do not meet the criteria of

rape. It is recommended that each case of sexual battery be reviewed to determine whether or not a rape has occurred. Sexual acts covered by the sexual battery statute that will not be reported under this classification include a) adultery and fornication where no force is used; b) incest where no force is used, and the victim is old enough to consent to the act; c) sodomy; d) sexual abuse where no force or threat of force can be determined; e) fellatio; f) cunnilingus; and g) statutory rape where the female victim is under the legal age of consent.

B. FORCIBLE SODOMY

DEFINITION: Oral or anal sexual intercourse with another person, using either personal sex organs or objects to commit the act, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

C. FORCIBLE FONDLING/INDECENT LIBERTIES/CHILD MOLESTING

DEFINITION: The touching of the private body parts of another person, using either an object or human contact to commit the act, for the purpose of sexual gratification, forcibly and/or against the person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

III. ROBBERY

DEFINITION: The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody or care of another person by force or threat of force or violence, and/or by putting the victim in fear.

GENERAL RULE: As a general rule, robbery differs from larceny in that it is aggravated by the element of force or threat of force to the victim. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or fear that force will be used.

Part I Mandatory Offenses (continued)

IV. AGGRAVATED ASSAULT

DEFINITION: An unlawful attack by one person upon another where either the offender displays a weapon, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

GENERAL RULE: As a general rule, all felonious and aggravated assaults will be classified in this category. Do not include assaults with the intent to rob or rape. Attempts to commit these crimes will be reported in the categories of robbery or rape.

An assault, or threat of an assault, with any weapon or item used as a weapon other than hands, fists and feet, will be classified as an aggravated assault. It is not necessary that injury be inflicted.

When personal weapons (hands, fists and feet, etc.) are used, the victim must be seriously injured by personal weapons. Usually, this involves a broken bone or injury so severe that the victim should be admitted to a hospital beyond mere emergency room treatment. This is the type of offense that would ordinarily be tried in a felony court.

SPECIAL INSTRUCTIONS: In most instances the initial facts will be sufficient to clearly establish the proper classification of an assault. Careful consideration of the following factors should clarify the classification of an aggravated assault: 1) the type of weapon used or the use made of an object as a weapon; 2) the seriousness of the injury; 3) the intent of the assailant to cause serious injury (especially in classifying acts by young children.) An assault exists when there is the threat and the ready ability to carry out a threat. Any attempted assaults may be optionally reported as an intimidation, rather than as an assault.

V. BURGLARY/BREAKING AND ENTERING

DEFINITION: The unlawful entry into a building or other structure with the intent to commit a felony or theft.

GENERAL RULE: As a general rule, report as one offense any unlawful entry or attempted forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer, warehouse, mill, barn, other building, ship or railroad car. If there is apparent unlawful entry and the offender has not completed an act or the actions or intent of the

offender are unknown, it should be reported as a burglary. Any time there is an uncertainty as to why entry was made to a structure, it should be reported as a burglary.

SPECIAL INSTRUCTIONS: Breaking into a vehicle, a telephone booth or certain other coin operated device is to be reported as larceny rather than as breaking and entering. The unlawful entry of a tent, camping trailer, mobile home on a sales lot, a house under construction that is not capable of being closed should be reported as larceny since the breaking and entering classification applies only to permanent buildings capable of being closed.

VI. LARCENY/THEFT OFFENSES

DEFINITION: The unlawful taking, carrying, leading or riding away of property from the possession, or constructive possession, of another person.

GENERAL RULE: All larcenies and thefts resulting from the following will be counted here: pocket picking, purse snatching, shoplifting, larceny from motor vehicles, theft of bicycles, larceny from buildings, larceny from any coin operated machines and "all other" type larcenies.

Embezzlement, fraudulent conversion of entrusted property, conversion of goods lawfully possessed by bailees, lodgers, or finders of lost property, obtaining money or property by false pretenses, larceny by check, larceny after trust, larceny by bailee are all to be classified in the appropriate crime category of Fraud or Embezzlement.

A. POCKET PICKING - The theft of articles from another person's physical possession by stealth, where the victim usually does not become immediately aware of the theft.

B. PURSE-SNATCHING - The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

C. SHOPLIFTING - The theft by a person, other than an employee of the victim, of goods or merchandise exposed for sale.

D. THEFT FROM A BUILDING - A theft from within a building which is either open to the general public or where the offender has legal access.

Part I Mandatory Offenses (continued)

E. THEFT FROM COIN-OPERATED MACHINE OR DEVICE - A theft from a machine or device which is operated or activated by the use of a coin or token.

F. THEFT FROM MOTOR VEHICLE (Except motor vehicle parts/accessories) - The theft of articles from a motor vehicle, whether locked or unlocked.

G. All other larceny.

VII. MOTOR VEHICLE THEFT

DEFINITION: Theft of a motor vehicle.

GENERAL RULE: The theft of a motor vehicle will be reported in this category. Thefts involving the following types of motor vehicles will be included: Automobile, bus, camper/recreational vehicle, truck/van, motorcycle, other self-propelled object used for transporting passengers or cargo. This category does not include bicycles, equipment built for construction or farming purposes.

SPECIAL INSTRUCTIONS: A vehicle stolen entry will be required for all committed motor vehicle thefts reported. A vehicle stolen entry will not be valid for an attempted motor vehicle theft. Joy riding incidents should be classified as a committed motor vehicle theft with the vehicle being shown as stolen and recovered.
